

## How Team iDemise guide is different from Zygor 1-70 Alliance Guide?

Presently, the market is flooded with various leveling guides for WoW (World of Warcraft). There are two guides which have been in great demand among the gamers - one is 'Team iDemise' and the other one from their competitor 'Zygor'. Before the arrival of these two guides, Brian Kopp's leveling guide was the only one in the market and is still considered to be a very comprehensive leveling guide as far as step-by-step instructions are concerned. Notwithstanding, both Team iDemise Leveling guide and Zygor's leveling guide have the excellent feature of mapmods. These mapmods make the use of guide in-game a lot easier as well as rapid. Team iDemise leveling guide proves a lot more helpful for the gamer and particularly its map mod increases the leveling speed of the gamer. Also, the gamer is able to use it inside the game instead of clicking on alt and tab all the time to look for the instructions and move between guide and the game. All information you need while playing the warcraft has been mentioned on the map; thus you are able to track the instructions for each quest. In addition, both Team iDemise leveling guide and Zygor's leveling guide are available in PDF version which gives them an appealing design. The guides are easy to comprehend and features illustrations are all over and instructions have been given in conversational way. You can say that these guides have an individualistic appeal which is generally lacked in other guides which largely speak in 'Do this quest here' tone. Mapmod used in Zygor is the Cartographer along with an exclusive database which is created specifically for the Zygor WoW guide. However, there is some difference between Zygor and iDemise World of Warcraft guides. Unlike iDemise Wow guide, in Zygor's leveling guide the gamer is required to open the PDF file in the background, so far that you may need to move between some windows using alt+tab. But you will have complete information about each quest that you want to complete along with comprehensive instructions within the game itself. Zygor's leveling guide is a properly laid out PDF file. Though, it may not be as good as iDemise, it is also true that there is a proper flow of everything in the guide that enables you to do everything in a very simple and plain way. You can read about both iDemise Leveling Guide and Zygor's Leveling Guide at [www.warcraftguidelist.com](http://www.warcraftguidelist.com). Before you grab any of the WoW guides to bring efficiency in your game; it is important that you compare all the guides available. However, mapmods do play an important role in any of the WoW guides. So, when taking a look at both iDemise and Zygor's leveling guides, you have to see which one comes more handy and appealing. Both of these guides offer the gamers with rock solid and rapid 1-70 leveling instructions. [www.warcraftguidelist.com](http://www.warcraftguidelist.com) reviews all the prominent WoW guides to help the gamer in selecting the right guide.
